

Sheet Metal Workers Local 91 – Health and Welfare Fund

SUMMARY OF MATERIAL MODIFICATION

February 18, 2021

The following modification to your health and welfare plan have been approved by the Board of Trustees of Sheet Metal Workers Local #91 Health and Welfare Fund. The modification is effective February 18, 2021.

The Vision Care Expense Benefits section of the Schedule of Benefits reflects the following changes:

Glasses will include not only conventional lenses and frames but also lenses for colorblindness. In the past, lenses and frames for colorblindness were not covered. Effective February 18, 2021 these products will be covered in the same manner and amount as conventional lenses and frames.

You will likely find that the provider with whom you are purchasing colorblindness glasses and frames will not bill your health coverage and you will have to pay the entire cost of the product. You should keep a copy of your itemized billing and paid receipt. You can present a copy of each to the Fund Office for reimbursement to you of the scheduled benefit allowed.

Any questions concerning these modifications should be directed to the fund office at 309-787-0695 extension 118.
